DIRECTORATE OF PUBLIC HEALTH AND PREVENTIVE MEDICINE,  
TAMIL NADU, INDIA

## Welcome to DPHICON 2022! An International Public Health Conference

Dear Friends and Colleagues,

We proudly announce that the Department of Public Health is organising International Conference on Public Health commemorating the 100 years of establishment of the Directorate of Public Health (1922-2022). Tamil Nadu is a forerunner for many public health initiatives in the country. It is the first state to have a distinctive Public Health Cadre and also first state to enact the Public Health Act in 1939.

On behalf of the Directorate we would like to officially invite you to participate and celebrate this Historical Milestone event. The 5 days event including the Pre conference, following the Torch Ceremony, is to bring together all the fraternity who directly or indirectly contributed to the welfare of the people of Tamil Nadu through various Public Health Policies and Strategies.

The conference will focus on Public Health Leadership and Governance, Health Financing, Public Health Challenges in Global, National and State context, Service Delivery, Health Workforce, Intersectoral coordination in delivering Primary Health Care services, Innovations in Public Health, Drugs, Vaccines & Logistics and Information Technology in Public Health.

The event will incorporate extensive discussions apart from workshops, Guest Speaker Plenary, Panel Discussions etc. It will be an excellent and exceptional opportunity which will enable students of Public Health and Community Medicine, showcase their research chance to debate pressing global issues, challenging them to take on new perspectives, and building strong new ideas in Public Health to become the world leaders of tomorrow to face any type of Public Health Challenges.

We look forward your valuable presence to make this Conference a successful event. Thanks for your support in advance.
